Installation steps

(1) Determine the installation position of the desktop first, according to the Monitor lift of the elevator chassis in the desktop to open the corresponding hole

(2) Then countersink the lifter panel accordingly to the size of the lifter panel

(3) Be sure to remove the anti-vibration screws before turning on the power.

(4) Put the lifter inside the open hole, and then connect the power to lift 1-3 times to ensure normal operation. Will be connected to the line on / off HDMI, data transmission, VGA input / output power cord) as follows

(5) installation is complete (Note: the possibility that the Monitor lift can not move: ① battery socket is not plugged in; ② through the controller is powered, you can press the panel button test)
