## Product Description

### Lcd Desktop Flip Display Screen Conference System

A screen up flipper, also known as an LCD flipper or display flipper, is a device that flips an LCD display (e.g., computer screen, conference screen, etc.) up and down on a desktop. When it needs to be used, the flipper can automatically or manually flip the LCD to a predetermined angle for easy viewing and operation. When not in use, the flipper can be flipped to hide the display inside the desktop, to keep the desktop clean and beautify the office environment.
