## Product Description

### 1M Running Aluminum Scissor Type Electric Motorized Projector Lift Lifts

The upper part of the hanger is a square frame with mounting holes for connecting to the upper part of the ceiling fixture. The distance between the base surface of the fixing and the surface of the ceiling depends on whether the projector is hidden inside the ceiling or not. At the bottom of the frame is the projector fixed universal hanger, according to the size of the projector to adjust the fixed universal hanger lever, so that the projector is connected to it. Connect the power and control wires correctly according to the wiring diagram.
