Product Description

Desktop Power Recessed Power Extention Desk Socket

Brush type socket is a special design of the socket, which is characterized by the use of brush structure to hide and protect the jack, the core design of the brush type socket is the brush on its surface. When the socket is not in use, the brushes can cover the jacks, effectively preventing dust and foreign objects from entering and keeping the socket clean.

junnan Multi-function Socket parameters

Product Name	Recessed Flip Socket
Product size	185*95*78mm
Product type	JN-185
Opening size	177*88mm
Product material	Aluminium
Panel colour	Brushed silver/black
Interface configuration	According to customer requirements

Our Advantages

Independent development and design team/support processing customization

We focus on innovation, continuous product and service development and innovation, to be able to provide customers with more competitive solutions to meet the growing needs of our customers.

The quality, stability, and durability of the products are rigorously tested to ensure reliable product quality.

We have advanced equipment and technical means in the field of technology, and we are able to provide customized solutions to meet the different needs of our customers.

And our junnan equipment has a variety of certificates certification such as CCC, CE certificate, ROHS, ISO certification, the product is safe and high quality, with export qualification, is a direct factory with favorable price, has its own factory and has been operating for many years.
