Guangzhou Junnan is a large-scale professional microphone lifter equipment and manufacturer in China. We specialize in the field of microphone lifter equipment for many years, the production of microphone lifter is mainly used for stage performances, KTV, speech, hosting and so on. The microphone lifter has a beautiful appearance, with the functions of receiving and releasing, driving the bottom noise, strong and weak power shunt, microphone automatic self-bridge and so on. Microphone lifter is famous for its high precision, stability and intelligent control, which is suitable for high-end conference and performance venues. Microphone lifters are unique in appearance design, can be integrated with different environment styles, and have high aesthetics. Our products cover most of the European and American markets. We are looking forward to being your long-term partner in China.

Microphone elevator speed adjustable, smooth operation, battery emergency elevation in case of power outage, comes with a hose to adjust the pointing at will. Meanwhile the chorus quality performance is good, built-in spool, hidden alignment, each microphone has a separate line. The panel comes with rise, fall, pause, microphone switch, can also be unified panel control. Adopt German technology to produce circuit integrated control board, high reliability. Adopt industrial grade automobile motor, long service life and good stability. Our advanced microphone lifters belong to the latest microphone lifters, which can be purchased wholesale or privately customized for customers. In addition, our Junan equipment has many certificates, such as CCC, CE certification, ROHS, ISO certification multiple choice certificate. Our products are safe and high quality, with export qualification, factory direct sale, favorable price, own factory, and have been in business for many years.
