Product Description

Smart Electric LCD Elevated Display Lifter conference

Conventional lifter for display, usually equipped with automatic elevation with manual angle adjustment function, can adjust the angle of the display as needed to get the best visual experience. Supporting RS485, RS232 and other communication protocols, it can be remotely controlled through the central control system, which is convenient for centralized management in large meeting rooms and other places.

Our Advantages

High production efficiency, the factory adopts assembly line operation, mechanized production

Independent development and design team/support processing customization

The product adopts advanced technology application, humanized design, convenient operation mode

We strictly implement the quality management system to ensure the quality of products and services in line with international standards of customer demand, to provide customers with reliable products and services to ensure that

Our equipment has CCC, CE, ROHS, ISO certification and other certifications, product safety and quality, with export qualifications.
